SPECIAL OFFER  
CATTLEYA ORCHID COLLECTION

The plants listed below are not in the best of condition as they have been grown with too much light and many of the leaves have burned spots on them, the bulbs are smaller and harder than usual but all are healthy and well rooted and will soon become nice plants under proper conditions. All are flowering size except the three inch pot size plants and some of those in the three and one-half inch pots. These smaller plants should bloom on the next growth or two. We are offering these for a small grower who is selling out. THESE ARE NOT OUR OWN STOCK.
